

# Platon Comfort Tape

Tape for sealing Platon Comfort

## Description :

The product provides a secure seal in comfort joints, and is aging-stable on normal concrete floors without continuous moisture migration. The concrete must be drying out and with a moisture content of less than 95% RH when installing Platon Comfort using Platon Comfort Tape. Platon Comfort Tape has good adhesion to Platon Comfort. The tape must be pressed down firmly during installation. The tape is supplied loose for the product.

## Application :

Platon Comfort Tape is used to seal joints on Platon Comfort, both lengthwise and widthwise.

## Storage :

Indoors, in unopened packaging, upright and at room temperature.

## Installation :

See installation instructions for Platon Comfort.

For more details see laying instruction on our website.

## Accessories for :

Platon Comfort 1 x 20m

## Approvals and guarantee

# Platon Comfort Tape<sup>412017</sup>
