

# Wood Screw 40mm

Fastener for asphalt roofing

## Description :

Washer and screw ensure that asphalt roofing is very firmly mechanically fastened to timber or wood wool roofing boards. Wood screws with fitted washers, supplied in packs of 850.

## Application :

Wood screw with fitted washer used for mechanical fastening of asphalt roofing to timber or wood wool roofing boards.

## Storage :

Store in a dry place

## Approvals and guarantee

## Installation :

Use wood screws with fitted washers along the side edge/upper overlap of the asphalt roofing. Fasten the screws in a zigzag pattern at approx. 10–12 cm intervals using a battery-powered drill. See also separate installation instructions.

For more details see laying instruction on our website.
